[CGD 95-039]

Oil Spill Removal Organization Program Workshop

AGENCY: Coast Guard, DOT.

ACTION: Notice.

SUMMARY: The Coast Guard is considering revisions to its Oil Spill Removal Organization (OSRO) classification process. The Coast Guard has identified a number of economic, programmatic, and operational inefficiencies in the current process. In order to fully understand and properly address these concerns with a focus on meeting our customer needs, the Coast Guard intends to revise the OSRO

program. The Coast Guard will conduct a workshop to obtain information from the affected community and the general public.

DATES: The workshop will be held June 15, 1995 from 9 a.m. to 4 p.m. Comments on proposed issues to be raised at the workshop should be submitted by May 30, 1995. Individuals interested in attending the public workshop should contact LT Terry Hoover by June 8, 1995.

ADDRESSES: The workshop will be held at the Best Western Old Colony Inn, 625 1st Street, Alexandria, Virginia. Written comments should be mailed to Commandant (G-MEP-2), Room 2100, U.S. Coast Guard, 2100 Second Street, SW., Washington, DC 20593-0001, ATTN: LT Terry Hoover.

FOR FURTHER INFORMATION CONTACT: LT Terry Hoover, Marine Environmental Protection Division (G-MEP), U.S. Coast Guard, 2100 Second Street, SW., Washington, DC 20593-0001, telephone (202) 267-0448.

SUPPLEMENTARY INFORMATION: The OSRO program was established to allow vessel and facility owners and operators to list a Coast Guard evaluated OSRO in an OPA 90 response plan in lieu of providing a detailed list of oil spill response equipment. Through the plan development and plan review processes, inefficiencies have been identified in the OSRO classification process. Because of these identified inefficiencies, the Coast Guard intends to revise the OSRO program.

The Coast Guard held a similar workshop in January 1994, with the intent of reviewing how the program was serving the customer and potentially modifying the OSRO program. However, since revisions would have been implemented during the critical response plan preparation and submission period, it was determined that modifying the OSRO program might adversely disrupt the ongoing planning process. The issues raised at the January 1994 workshop will be summarized at the June 1995 workshop.

The workshop format will consist of a briefing on the current program, a review of difficulties reported, a verbal summary of written comments received to date, and a structured but open forum discussion on ideas to improve the system. Written comments or questions may be submitted before or after the workshop. All comments or questions after the workshop should be submitted prior to July 1, 1995. The Coast Guard intends to publish a revised process no later than August 1, 1995. Any changes

to location or dates of the workshop will be announced in the **Federal Register**.

The Coast Guard also plans to hold a workshop on June 14, 1995, at the same location to discuss the National Preparedness for Response Exercise Program (PREP). A separate notice will be published in the **Federal Register** to address the PREP workshop.

Dated: May 9, 1995.

G.N. Naccara,

Captain, U.S. Coast Guard, Acting Chief, Office of Marine Safety, Security and Environmental Protection.
